Jesús Muñoz Post

JUNIOR FRONT END DEVELOPER

ABOUT ME

I am a friendly and hardworking junior web developer. I am passionate about interface design, which is why I pursued a degree in Video Game Design and Development, specializing in UX/UI. I have just completed a Full Stack Web Bootcamp, learning the latest technologies in the field.

I have experience in understanding user needs, allowing me to develop more user-friendly and easy-to-use apps and tools.

I'm just starting out, and I hope to have the opportunity to learn from the best in the field and become one of them.
